Cooler
Matching Cover

Description:

(No Trailer)

Here is another outstanding pontoon added to our used Inventory. This Harris 240 Classic is a one owner pontoon with very low hours on it. The interior is in excellent shape with no rips or tear in it. It is powered with the Mercury 150 Verado four stroke motor and has the performance III package for that smoother ride on the water. The name of this pontoon says it all "Classic". This 24 foot pontoon has everything that you will ever need to enjoy a day on the water. The high back drivers seat will make the driver feel like they are at home in his or her recliner, the popup changing room will give privacy when you need it, and the rap around seating is enough room for the whole family and friends to just hang out. It is equipped with a stainless steel tow bar for all water sports that you want to do, and a table to enjoy a picnic out on the water. Don't miss out on this great looking pontoon.
